
Roll Shutters Forming Machine

As an ISO9001 certified roll shutters forming machine manufacturer, we are able to provide customers with high quality forming machines. Our dedicated technical team, extensive experience and cooperative relationships with famous universities in China enable us to keep our technology current and constantly introduce new products to the market.

The product shown on this page is our CE compliant roll shutters forming machine, which features high speed, high automation and great reliability. This machine is composed of decoiler, sheet guiding equipment, roll forming section, cutter, supporter, hydraulic system and control system. The roof and wall produced by it are aesthetic, durable and easy to use, with even ripples.

This type of forming machine comes in two models, whose main technical parameters are as follows

Roll Shutters Forming Machine, HZ-9/HZ-100

Thickness	0.6-1.2mm
Forming step	13
Main motor	5.5KW
Forming spec.	HZ-180,HZ-128
Cutting	Hydraulic cutting
Main motor	3KW

Roll Shutters Forming Machine, HZ-60-80

Thickness	0.8-2.0mm
Forming step	14
Main motor	7.5KW
Forming spec.	HZ-30,HZ-60
Cutting	Hydraulic cutting
Main motor	3KW

In addition to roll shutters forming machine, we also offer other types of forming machine, like tile roof forming machine, keel forming machine, Z shape forming machine, and more, which are very popular with customers from Britain, Spain, Portugal, and countries in Africa and the Middle East.

We are looking forward to working with customers worldwide. Please contact our sales team for more information.
