
Shutter Box Forming Machine

Welcome to Huazhong Cold Bending Machinery Company, an ISO9001 certified shutter box forming machine manufacturer in China.

The product pictured here is HZ-BOX shutter box forming machine, which is one of our popular forming machines. This roll forming equipment can make a variety of shutter boxes and covers, with sizes respectively ranging from 351-554mm, 238-422mm. Although the main motor power and material thickness are 5.5KW and 0.8-0.9mm, the forming steps involved in making box and cover are different. Please refer to the parameter tables below for more detailed information.

Forming step	16	
Thickness	0.8-0.9mm	
Main motor	5.5KW	
Cover		
Forming step	8	
Thickness	0.8-0.9mm	
Main motor	5.5KW	
Shutter size(mm)	Box (mm)	Cover (mm)
150	351	238
165	381	266
180	410	294
205	464	344
230	554	422

With years of manufacturing experience, we can produce a wide range of products, including roll shutter forming machine, corrugated sheet forming machine, C, Z shape forming equipment, and more. In order to offer customers better quality products, we utilize advanced equipment and strictly monitor each production process, from material selection, through processing, to final inspections. As a result of our efforts, our products are high quality, long lasting, CE certified, and are in great demand by customers worldwide.

Thanks for your visit! We are looking forward to hearing from you.
