
Keel Forming Machine

Thanks for your interest in our website! As an ISO9001:2000 certified keel forming machine manufacturer in China, we endeavor to provide customers with superior forming equipment. Our keel forming machine is designed on the basis of our extensive experience and advanced technology. It is made up of decoiler, feeding guide, main frame, correction system, electrical control system, cut-to-length unit, etc.

Features

1. Our keel forming machine can produce both U shape keel and T shape keel.
2. It uses PLC control and is provided with multiple safety functions.
3. Main frame is constructed of cast iron for high strength and long lifetime.

Main Technical Parameters

U Type Keel Forming Machine

Forming steps	12
Material thickness	0.3mm-0.8mm
Motor power	5.5kw

T Type Keel Forming Machine

Forming steps	16
Material thickness	0.3mm-0.8mm
Motor power	5.5kw

Our company is located in Wuxi, near the port city Shanghai. Here we have easy access to convenient transportation, in addition to local suppliers. This contributes to reducing our production costs, enabling us to offer our sheet forming machine, tile roof forming machine and keel forming machine at economical prices. Interested in our roll forming machine? Please don't hesitate to contact us.
